Most Requested Speaking Topics

Creating Success Habits

"People do not decide their futures, they decide their habits and their habits decide their futures."

– FM Alexander

Success is about doing the right thing, not everything. What success habits have you implemented into your life? Are there some habits you need to let go of?

In this session you will:

- Identify a key habit that will yield you the greatest results in a desired area of your life
- Implement the 66 day challenge
- Learn about the "halo effect" that shows itself when you are focusing on the right habits.

Aligning your purpose with your goals

Purpose is the straightest path to power and the ultimate source of personal strength—the strength of conviction and the strength to persevere. What is your purpose and is it in alignment with your goals?

In this session you will:

- identify your purpose and start creating your purpose statement
- Create goals that support your purpose.

Time management

If I had a dollar for every time I said I need more hours in a day, I would be a billionaire! If you find yourself needing more hours in a day, exhausted from running from one appointment or event to the next, letting go of your personal desires, then this course is for you.

In this session you will:

- Review the 7 key areas in our lives and determine how much time you want to spend in each area
- Identify the thieves of productivity
- Learn 4 proven ways to protect your time block.

All topics can be customized for your audience. Topics are available as half hour to 45 minute keynotes and as extended workshops and break out sessions.

“Lisa, I think your talk helped motivate everyone. I talked to one of our managers yesterday and she was super excited to start focusing on her top priorities each day VS running around like a chicken constantly and hardly putting a dent in things. I cannot thank you enough for coming out and speaking with us. We are looking forward to working with you whether it is 1-1 coaching, or periodic seminars with our staff. “

— Nikki Soldan
